SOLID WASTE FACILITY PERMIT NO.

State Solid Waste Management Board

San Bernardino

36-SS-003

FACILITY NAME

The Metropolitan Water District of Southern Calif., Iron Mt. Pumping Plant

PROPOSED

OPERATOR

The Metropolitan Water District of Southern California

SSWMB APPROVAL

FACILITY LOCATION

Iron Mountain Headquarters, Vidal, CA 92280

ENFORCEMENT AGENCY

APPROVAL

9/19/78

FINDINGS

- A. This facility is an existing (since 1955) 5 acre Class II Sanitary Landfill exclusively for disposal of solid wastes generated from employee residences, the maintenance center, and pumping plant. The trench-cover method of operation is utilized at the site, which receives 1-2 tons of waste per week. Projected site life is 30 years. Site operations are weekly with a minimum 12-inch compacted back fill and salvaging is not permitted.
- * Type of wastes received at the site include:
- 1. Residential
 - 2. Industrial
 - 3. Demolition
- B. Design and operation of this facility are as specified by the Report of Disposal Site Information dated March 13, 1978 and amended July, 1978, which is hereby made a part of the Findings. There are no proposed significant changes in design or operation.
- C. Land within 1,000 feet of the site is zoned DL-40 (desert living).
- D. This facility's design and operation were in substantial compliance with State Minimum Standards as determined by a physical inspection made April 27, 1978.
- E. This permit is consistent with the Facility's Element of the San Bernardino County Solid Waste Management Plan as approved May 28, 1976.
- F. There are no documents which condition operation of this facility. The Regional Water Quality Control Board has not established waste discharge requirements for this site. However, water runoff (flash floods) appear to be adequately controlled by berms, slope of fill surface and collection systems to the North and South of the fill. Surface waters flow into the Danby (Dry) Lake 3 miles northeast of the pumping plant.
- G. This facility has been in continuous operation since 1955 and therefore, is exempt from conformance with the San Bernardino County Solid Waste Management Plan as allowed by Government Code, Section 66783.1

This permit is granted solely to the operator named above, and is not transferable. Upon a change of operator, this permit is subject to revocation. Upon a significant change in design or operation from that described in this permit or in attachments thereto for the existing design and operation of a facility operating immediately prior to August 15, 1977, or from the approved intended design and operation of a facility which was not operating prior to August 15, 1977, or which herein is granted a permit modification, this permit is subject to revocation, suspension, modification or other appropriate action.

This permit does not authorize the operation of any facility contrary to the State Minimum Standards for Solid Waste Handling and Disposal. This permit cannot be considered as permission to violate existing laws, ordinances, regulations, or statutes of other government agencies.

I. Conditions

A. Requirements:

1. This facility must be in compliance with the State Minimum Standards for Solid Waste Handling and Disposal.
2. This facility must be in compliance with all federal, state, and local requirements or enactments.
3. Additional information concerning the design and operation of this facility must be furnished upon request of the enforcement agency.

B. Prohibitions:

The following actions are prohibited at the facility:

1. Disposal of hazardous waste materials
2. Scavenging

C. Provisions:

1. The operator will immediately commence and thereafter maintain a record of any cuts made in natural terrain, where fill is placed, and depth to groundwater.
2. The operator will immediately commence and thereafter maintain a log of special occurrences.
3. The permit is subject to review by the enforcement agency, and may be suspended, revoked, or modified at anytime for sufficient cause.

D. Specifications

No significant change in design or operation from that described in Items A, B of the "Findings" Section is allowed, except for those changes which are required under the "Provisions" portion of this permit.
